

Facilities Management

University Senate

March 5, 2014

Kerri Sleeman, Executive Director

MichiganTech

Facilities Management includes:

- Custodial and Maintenance Services
- Energy Management
- Engineering Services
- Grounds and Gardens
- Husky Motors
- Transportation Services

Submitted questions:

- "It would be nice to hear about the funding model for parking, i.e. is it a break-even operation, does it receive general fund funding, does it produce a "profit" and if so where does that money go?"
- "Has the new system resulted in freeing up parking spots as intended?"
- "Are there any departments that are paying for their employees parking permits as a benefit?"

MichiganTech

Additional questions we've received in the past few months:

- “Why do we have to register our vehicles? Can't you just get that information from the state?”
- “Why do we have to bring in our old permit to receive a new one?”
- “Why are we limited to four vehicles?”

“Can we get an update on the progress of the Smoke Free Campus policy?”

Dr. Les Cook presented a “Tobacco Free Campus Overview” to the Senate in Fall 2012
